PHOTOGRAPHY

Locations Manager

A location manager handles the creative side of finding appropriate locations, as well as handling the logistics needed to make that location work, like paying the property owners, securing permits, and alerting neighbors about the film shoot.

Media Industry Careers Map

PHOTOGRAPHY

Product Photography

Product photography is a form of commercial photography and has the goal of presenting a product in the best possible representation.

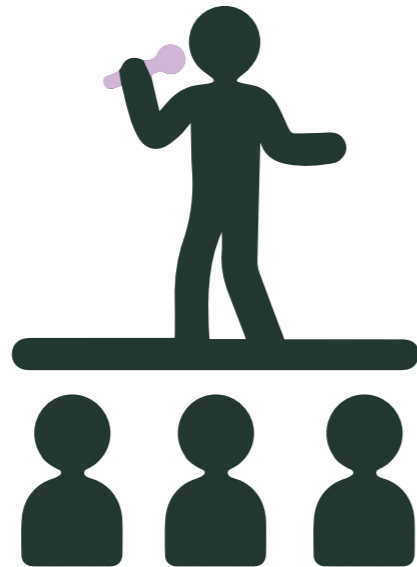

The product photographer is responsible for capturing images of products for advertising purposes. Product photographers work with brands to create images that will best represent the product.

Media Industry Careers Map

PHOTOGRAPHY

Artist/Event Photography

Independent photography is a form of photography that has the aim of presenting a non-mainstream product in the best possible photographic representation. Often, these are 'social' photographs, or deal with subject matter that is classed as 'leftfield' or 'underground'. Event Photographers capture special moments at weddings, anniversaries, parties, and shows. Their common duties listed on an Event Photographer resume sample are discussing requirements with clients, taking photographs during festivities, composing shots, editing photos after the event, and delivering the final product.

Media Industry Careers Map

PHOTOGRAPHY

Portrait/Wedding Photography

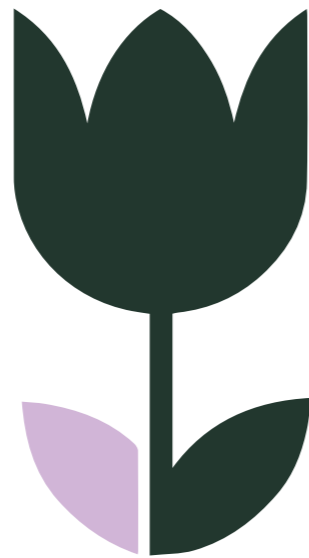

A portrait photographers take pictures of people, either individually or in groups. They sometimes specialize in specific types of portraiture, like weddings, events, or senior portraits for high school students. Commonly, portrait photographers also edit and print the photos they take for clients.

Media Industry Careers Map

PHOTOGRAPHY

Nature Photography

Wildlife photography is about capturing a split second, when the light and the animal behavior come together to create an emotional picture. This can be a tricky job as one cannot change the weather and the light, where the wild animals want to go, what they want to do, and when special things happen to them.

Media Industry Careers Map

PHOTOGRAPHY

Fashion Photography

Fashion photographers take photographs of the latest clothes, accessories, hairstyles and make-up. Fashion photographers are responsible for how clothing is presented in advertising campaigns, catalogues and fashion magazines.

Media Industry Careers Map

PHOTOGRAPHY

Forensic Photography

A forensic photography is an essential technique used in the field of forensic odontology that plays an important role in crime investigations. The main significance of photography in forensic odontology is that it is economical and provides evidence at a faster rate.

Media Industry Careers Map

DESIGN

Graphic Design

A graphic designer works to bring all kinds of communication alive. Graphic designers produce designs that get their clients' messages across with high visual impact. They work on a huge variety of products, including websites, product packaging, books and magazines, corporate identity (to give organisations a visual 'brand'), advertising, exhibitions and displays, and computer games.

Most graphic design work is now done on computer using specialised industry-standard graphics and multimedia software packages and hardware. Graphic designers have to work closely with other colleagues involved in projects, such as copywriters, photographers and sales staff. They may also work directly with clients.

Media Industry Careers Map

DESIGN

Web Designer

Web designers create the look, layout, and features of a website. The job involves understanding both graphic design and computer programming. Once a website is created, a designer helps with maintenance and additions to the website. They usually work with development teams or managers for keeping the site up-to-date and prioritizing needs, among other tasks. Web designers also plan, create and code internet sites and web pages, many of which combine text with sounds, pictures, graphics and video clips. A web designer is responsible for creating the design and layout of a website or web pages.

Media Industry Careers Map

DESIGN

Interior Designer

The interior designers are tasked with designing, implementing and refurbishing interior spaces. These DIY dynamos transform rooms in accordance with their clients requested requirements, using their artistic flair and understanding of colour to design interior spaces that have the right aesthetic appeal and make the most of the available space.

Media Industry Careers Map

DESIGN

Product Designer

Product designers design most things we use in our day-to-day lives, from tables and utensils to clocks and PCs, as well as specialist products like medical, electronics or telecommunications equipment.

Their aim is to improve the way that existing products work and look and/or produce them at a lower cost. They may also be involved in designing entirely new products.

Media Industry Careers Map

DESIGN

Fashion Designer

A Fashion Designer designs and assists with the production of clothing, shoes and accessories, identifies trends, and selects styles, fabrics, colors, prints and trims for a collection. Fashion Designers commonly design ready-to-wear clothing for retail markets or special events. Depending on level of responsibility and the company, a fashion designer may work to their own brief or be given a brief to work towards (including specifications in relation to colour and fabric) and develop a product from this.

Media Industry Careers Map

DESIGN

Architect

An architect creates designs for new construction projects, alterations and redevelopments. They commonly use their specialist construction knowledge and high-level drawing skills to design buildings that are functional, safe, sustainable and aesthetically pleasing.

Media Industry Careers Map

VFX

VFX Designer

VFX artists use software to create animations and special effects. Typically they work on movies, television shows, or video games.

Using software, VFX artists create visually engaging motion graphics and animations. This sometimes involves working with a few dimensional models. The animations and graphics they create are stylistically consistent and enhance the visual style of their work.

Media Industry Careers Map

VFX

Animator

Animators create figures with personality by making them move in ways that show their character and emotion. In VFX, they normally use computer-generated 'rigs' to help make the characters in a shot move in a believable way. They might animate vehicles or machinery too.

Media Industry Careers Map

VFX

Data Capture Technician

Data capture technical directors go onto the film or TV set to collect the information about the live-action footage that the teams in the VFX studio need to add the visual effects.

They take photographs of the set and the way the cameras are positioned. They tend to capture data about the type of lens type being used, its focal length, filters, focus and colour temperature. They also record the camera height, camera mount and distance between the camera and actor, and other details.

Media Industry Careers Map

VFX

Modelling Artist

Modelling artists create characters, artillery, plants and animals on a computer in 3D.

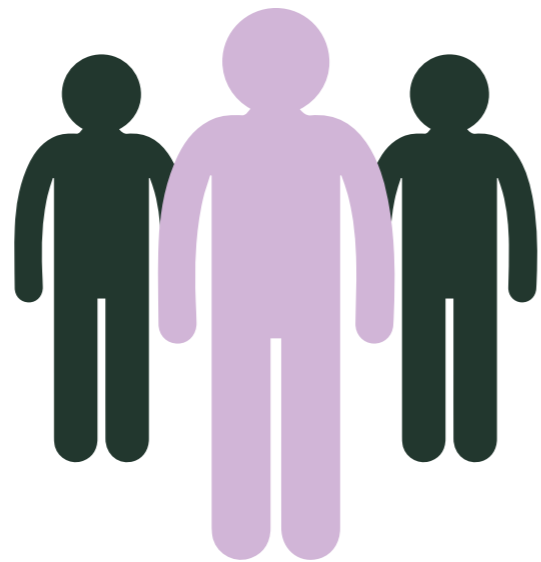

They start with a brief, which could be 2D or 3D art produced by a concept artist. Or they can work from reference materials, such as photographs or line drawing sketches, which can be scanned into 3D software.

Media Industry Careers Map

VFX

Production Manager

A production manager will act on the decisions that have been made by the VFX producer. They create a detailed schedule for the project and look after the budget.

Media Industry Careers Map

VFX

VFX Editor

VFX editors work as a link between the film or TV production team, which shoots the live-action footage, and the VFX studio that does the visual effects. VFX editors can be employed by a VFX studio or directly by the film or TV production company. The role varies depending on whether they are in-house (employed by the studio) or client-side (employed by the film or TV production company).

Media Industry Careers Map

VFX

Compositor

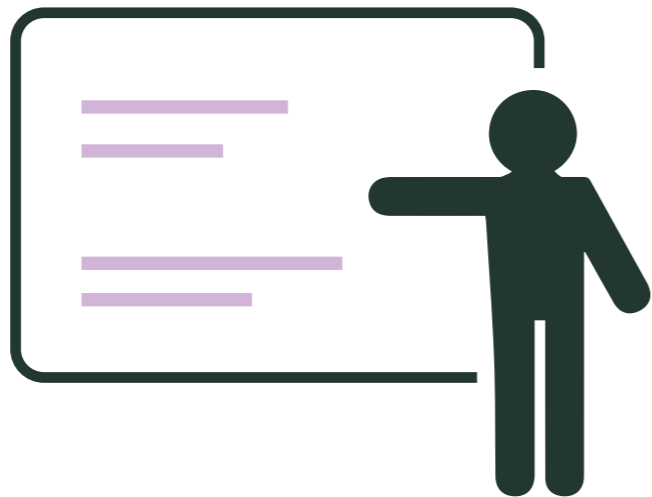

Compositors create the final image of a frame, shot or VFX sequence. They take many different digital materials used (assets), such as computer-generated (CG) images, live action footage and matte paintings, and combine them to appear as one cohesive image and shot.

Media Industry Careers Map

INDUSTRY/EDUCATION

Media Teacher/Tutor

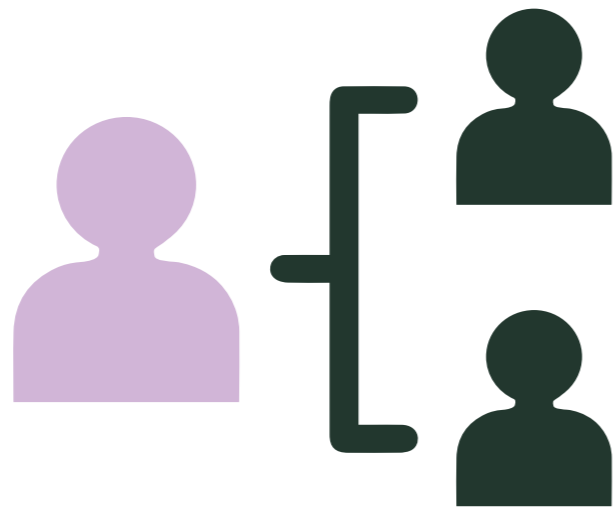

Teachers have always been vital in the all round personality development of students. A teacher is a role model influencing every facet of student's growth and developing their innate potentials, in addition to being a motivator and guide. Media tutors share their wisdom and knowledge in their particular field and facilitate the learning and skill development of students, helping guide their future paths.

Media Industry Careers Map

INDUSTRY/EDUCATION
