YOUNG VISIONARIES

"Young Visionaries has given me **opportunities** like going on the radio & being able to speak in public.

I was able to join a **community** with people who have **goals & visions like mine.** "

Ankita, 12

"Young Visionaries has **helped my confidence** more than anything! It's helped me **grow as a performer** but also helped me working with young people.

I cannot recommend joining this group anymore. The love you feel is radiant!

Ruby, 18

"A wholesome sense of **artistic community** combined with a driven & supportive facilitator who is experienced in the music scene, has enabled me to become much more confident playing in front of an audience & **motivated me to develop more of my own material.**

I've also made some great friends!"

Earl, 17
